

Technical Information

Wire Products - Wire Ties

Types Available

Wire ties provide fast and cost efficient fastening solutions for securing and tying applications within agriculture, building, construction, civil engineering and general industry.

These are available in sizes from 4-26inches (selected qualities and grades) in a choice of gauges and colours.

Annealed Wire Ties

Versatile solution for fastening and bundling.
Available in 17g (standard) and 16g (heavy duty).
Typical applications: securing sack tops and bundling products.

Galvanised Wire Ties

Produced from wire galvanised to BS EN 10244-2:2001 Class A providing a bright clean product protecting the tie even for outdoor use.
Available in 17g (standard) and 16g (heavy duty).
Typical applications: securing fencing.

Stainless Steel Wire Ties

For the ultimate in protection and longevity, clean and bright stainless steel.
Available in 18g (standard) and 16g (heavy duty).
Typical applications: construction and security industry.

PVC Coated Wire Ties

Manufactured using annealed wire with a PVC coating for added protection.
Available in a range of colours and qualities. (Note: Heavy duty range available in Green coating only.)
Typical applications: fencing, product colour coding for fastening sacks and similar containers. Heavy duty option used extensively for silage sacks.
